Niveau : Début

Durée : 5 jours (35h.)

Tarif: Nous Contacter

Date: Juin Juillet Septembre

Contact: +225 22469017 / 74622582

Objectifs

In this course, you will identify many of the common risks involved in using conventional end-user technology, as well as ways to use it safely, to protect yourself from those risks.

You will:

- Identify the need for security.
- Secure devices like desktops, laptops, smartphones, and more.
- Use the Internet securely.

Public

This course is designed for you as a non-technical end user of computers, mobile devices, networks, and the Internet, to enable you to use technology more securely to minimize digital risks.

This course is also designed for you to prepare for the Certified CyberSAFE credential. You can obtain your Certified CyberSAFE certificate by completing the Certified CyberSAFE credential process on the **CyberSafeCert.com** platform following the course presentation.

Pré-requis

To ensure your success in this course, you should have experience with the basic use of conventional end-user technology, including desktop, laptop, or tablet computers, mobile phones, and basic Internet functions such as web browsing and email. To obtain much of this prerequisite knowledge, you should consider taking the following Logical Operations course:

- *Using Microsoft® Windows® 10*
